YPF SOCIEDAD ANONIMA
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2018 AND COMPARATIVE INFORMATION (UNAUDITED)

1. GENERAL INFORMATION, STRUCTURE AND ORGANIZATION OF THE BUSINESS OF THE GROUP (Cont.)

Organization of the business

As of March 31, 2018, the Group carries out its transactions and operations in accordance with the following structure:

- Upstream;
- Gas and Power;
- Downstream;
- Central administration and others, which covers the remaining activities not included in the previous categories.

Activities covered by each business segment are detailed in Note 6.

Almost all operations, properties and clients are located in Argentina. However, the Group also holds equity interests in exploratory and production areas in Chile and Bolivia. The Group also sells lubricants and derivatives in Brazil and Chile.

2. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

2.a) Basis of preparation

The condensed interim consolidated financial statements of YPF and its subsidiaries for the three-month period ended March 31, 2018, are presented in accordance with IAS 34 “Interim Financial Reporting”. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Group as of December 31, 2017 prepared in accordance with IFRS.

Furthermore, some additional information required by the LGS and/or regulations of the CNV was included. This information is contained in the Notes to these condensed interim consolidated financial statements only to comply with regulatory requirements.

These condensed interim consolidated financial statements were approved by the Board of Directors’ meeting and authorized to be issued on May 8, 2018.

These condensed interim consolidated financial statements corresponding to the three-month period ended on March 31, 2018 are unaudited. The Company’s Management believes they have included all necessary adjustments to reasonably present the results of each period on a basis consistent with the audited annual consolidated financial statements. Income for the three-month period ended on March 31, 2018 does not necessarily reflect the proportion of the Group’s full-year income.

2.b) Significant Accounting Policies

The most significant accounting policies are described in Note 2.b to the annual consolidated financial statements.

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements, except for the valuation policy for Income Tax detailed in Note 16.

Also, in compliance with the entry into force of IFRS 15 and the changes in IFRS 9 (as revised in 2014), effective as of January 1, 2018, the Group modified the accounting policy for the disclosure of revenue from ordinary activities arising from contracts with customers as well as the accounting policy applied to the impairment and provision for trade receivables and other doubtful receivables and contract assets, both described in this Note.

Functional and reporting currency

As mentioned in Note 2.b.1. to the annual consolidated financial statements, YPF has defined the U.S. dollar as its functional currency. Additionally, according to CNV Resolution No. 562, YPF must present its financial statements in Argentine pesos.

Adoption of new standards and interpretations effective as of January 1, 2018

The Group has adopted revised standards and interpretations, issued by the IASB, relevant to its operations which are of mandatory and effective application as of March 31, 2018, as specified in Note 2.b.25 to the annual consolidated financial statements. The aforementioned new standards and interpretations that affected these condensed interim consolidated financial statements are described below:

• **IFRS 15 – Revenue from ordinary activities arising from contracts entered into with customers**

This standard presents a detailed five-step model to explain the revenues from contracts with customers. It is mainly based on the principle that the entity has to recognize the revenues to represent the transfer of goods or services promised to customers in an amount that reflects the consideration that the entity expects to receive in exchange for the goods or services at the time a performance obligation is satisfied. An asset is transferred when (or as) the customer obtains control over that asset, with control defined as the ability to direct the use of, and obtain substantially all of the remaining benefits from the asset.

It has also introduced more prescriptive indications:

- If the contract (or a combination of contracts) contains more than one promised good or service, when and how the goods and services should be delivered.
- If the transaction price distributed to each performance obligation should be recognized as income over the course of a period of time or at a certain point in time. Under IFRS 15, an entity recognizes revenue when an obligation is performed, namely, when the control of the goods and services which has a particular obligation is transferred to the customer. The new model does not include separate guidelines for the “sale of goods” and the “provision of services”. Instead, it requires that entities evaluate whether the revenue should be recognized over a period of time or at a given point in time, regardless of whether the said revenue includes “the sale of goods” or “the provision of services”.
- Where the transaction price contains an estimation of variable payments, how the amount and the time will affect the recognition of revenue. The concept of estimation of variable consideration is broad. A transaction price is considered variable on account of discounts, refunds, credits, price concessions, incentives, performance bonuses, penalties and contingency agreements. The new model introduces a major condition for a variable consideration to be recognized as revenue: only until it is highly improbable that a significant change in the accumulated revenue amount will occur, once the uncertainty associated with the variable consideration has been resolved.
- When the incurred costs to execute a contract and the costs to perform it may be recognized as an asset.

Within this regulatory framework, contracts with customers were analyzed, the main ones being:

- Contracts for the sale of fuel in consignment;
- Contracts for the direct sale of fuel;
- Contracts for the sale of natural gas;
- Contracts and agreements for the sale of other refined products;
- Construction contracts.

In the first four types of contracts, related to the sale of goods, income is recognized when the control of the goods is transferred to the customer. Even in the case of consignment contracts, income is not recognized until the good is sold to the intermediary’s customer. It is emphasized that in these contracts there are no performance obligations that are separate or different from the delivery of goods.

In the case of the construction contracts, income is recognized considering the estimated final margin for each project that arises from technical studies on sales and the estimated total costs of each of them, as well as their physical progress. In this type of contract, performance obligations are satisfied over time.

**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2018 AND COMPARATIVE INFORMATION (UNAUDITED)**

2. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Cont.)

The Group has adopted the full retrospective method for the implementation of this standard, which has not affected the accounting policies related to the recognition of revenues from contracts with customers, as explained in Note 2.b.11 to the annual consolidated financial statements, and therefore the initial retained earnings have not been affected either.

The Group has adopted the standard’s terminology, identifying “Contract Assets” and “Contract Liabilities”. Thus, certain reclassifications have been made in the statements of financial position in the comparative amounts for the fiscal year ended December 31, 2017, as shown below:

	Amounts as of December 31, 2017		Reclassifications IFRS 15		Amounts restated as of December 31, 2017	
	Non-current	Current	Non-current	Current	Non-current	Current
Assets						
Inventories	—	27,291	—	(142)	—	27,149
Contract Assets	—	—	—	142	—	142
Liabilities						
Accounts Payable	1,655	47,371	(1,470)	(1,460)	185	45,911
Contract Liabilities	—	—	1,470	1,460	1,470	1,460

Additionally, IFRS 15 introduces requirements aimed at providing new disaggregation of information to be disclosed. Based on the revenue analysis carried out by the Company’s Board of Directors, Note 20 has been broken down by (i) type of good or service; (ii) sales channels, and (iii) target market, according to the reported business segments.

• **IFRS 9 – Financial Instruments**

The criteria and requirements defined by the standard may be divided into three groups:

Classification and measurement of financial assets and liabilities

The Group adopted IFRS 9 as of the transition date in accordance with the regulations in force in 2013, which dealt with everything related to the classification and measurement of financial assets and liabilities. With respect to the application of IFRS 9 (as revised in 2014), based on the Company’s analysis of the Group’s financial assets and liabilities as of March 21, 2018 and December 31, 2017, and on the prevailing facts and circumstances on the respective dates, its application did not have any impact on the accounting treatments described in the Notes to the annual consolidated financial statements regarding the issues mentioned in this paragraph.

Hedge Accounting:

The general hedge accounting requirements of IFRS 9 maintain the three types of hedge accounting mechanisms included in IAS 39. However, the eligible types of hedge accounting transactions are now much more flexible, especially by expanding the types of instruments that are classified as hedging instruments and the types of risk components of non-financial elements ideal for hedge accounting.

Additionally, the effectiveness test has been reviewed and replaced by the principle of “economic relationship”. A retrospective evaluation is no longer required to measure the effectiveness of coverage. Many more disclosure requirements have been added regarding the entity’s risk management activities.

The application of this standard related to hedge accounting has not had any impact because the Group has not carried out this type of transactions as of the end of this period or in the fiscal year ended December 31, 2017.

Impairment methodology

The impairment model provided under IFRS 9 reflects expected credit losses, as opposed to credit losses incurred under IAS 39. Within the scope of impairment under IFRS 9, it is no longer necessary for a credit event to occur before credit losses are recognized. In contrast, an entity always records both the expected credit losses and their changes. The amount of expected credit losses must be updated on the issuance date of each financial statement in order to reflect any changes in credit risk since initial recognition.

YPF SOCIEDAD ANONIMA
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2018 AND COMPARATIVE INFORMATION (UNAUDITED)

2. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Cont.)

The Group estimated the impairment of its financial and contract assets based on the simplified model, by preparing a matrix per category and dividing the assets into groups based on the type of customer: i) related parties, ii) public sector and iii) private sector. These groups were subsequently divided into sub-groups based on special characteristics indicative of the repayment capacity, such as i) payment arrears, ii) existence of guarantees, iii) existence of a judicial proceeding already initiated or in process of initiation for collection purposes, among others. Once each Group was defined, an expected bad-debt rate was assigned based on historical default rates adjusted to future economic conditions.

Thus, the accounting policy related to the impairment of financial assets described in Note 2.b.2) to the annual consolidated financial statements was replaced. Under that policy the impairment of a financial asset was recorded only when there was an objective evidence of the impairment of the asset, based on the difference between the book value of the asset and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

In compliance with the exception provided under IFRS 9, the Group has retroactively applied the changes in the standard, without restating the comparative amounts. Therefore, the difference between the previous accounting amounts and the new initial amounts resulting from the initial application of the standard were recognized as an adjustment in the “Retained Earnings” as of January 1, 2018. The information disclosed for 2017 reflects the requirements set forth in IAS 39, and not those of IFRS 9 in relation to impairment of financial assets. The implementation of the impairment method introduced by the standard generated a loss of 425 with the consequent effect on the deferred tax of 127. The net effect shown in the statement of changes in shareholders' equity was of 298, which was not significant for the financial position and/or performance of the Group.

2.c) Accounting Estimates and Judgments

The preparation of financial statements at a certain date requires Management to make estimates and assessments affecting the amount of assets and liabilities recorded, contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and assessments made as of the date of preparation of these condensed interim consolidated financial statements.

In preparing these condensed interim consolidated financial statements, significant estimates and judgments were made by Management in applying the Group's accounting policies and the main sources of uncertainty were consistent with those applied by the Group in the preparation of the annual consolidated financial statements, which are disclosed in Notes 2.b and 2.c to the annual consolidated financial statements.

2.d) Comparative information

Amounts and other information corresponding to the year ended on December 31, 2017 and to the three-month period ended on March 31, 2017 are an integral part of these condensed interim consolidated financial statements and are intended to be read only in relation to these financial statements.

Additionally, certain amounts in the statement of financial position have been reclassified due to the accounting policy changes mentioned in paragraph b) of this Note.

3. SEASONALITY OF OPERATIONS

Historically, the Group's results have been subject to seasonal fluctuations during the year, particularly as a result of the increase in natural gas sales during the winter. After the 2002 devaluation of the Argentine peso, and as a consequence of the natural gas price freeze imposed by the Argentine government, the use of natural gas has been diversified, generating an increase in demand throughout the entire year. However, the recent adjustment in gas prices, which also affects the residential market where the demand has shown

certain susceptibility to the price of gas, may lead the Group to seasonal fluctuations in its sales volumes and prices, which might adversely affect the level of production and sale of natural gas.

4. ACQUISITIONS AND DISPOSITIONS

• **Agreement for YPF EE’s capitalization**

On March 20, 2018 GE EFS Power Investments B.V., a subsidiary of EFS Global Energy B.V (both companies indirectly controlled by GE Energy Financial Services, Inc.), subscribed YPF EE shares representing 24.99% of its capital stock. Since then, GE EFS Power Investments and YPF jointly control YPF EE, undertaking to contribute as follows:

- Subscription price of US\$ 275 million:
 - US\$ 135 million as of the closing date of the transaction; and
 - US\$ 140 million 12 months after the closing date of the transaction.
- Contingent price of up to the maximum sum of US\$ 35 million subject to the evolution of the electric market prices (33.33% as of 24 months from the closing date of the transaction and 16.67% each subsequent year).

In this way, the capital structure of YPF EE after the issuance of shares is as follows:

Shareholder	Number of Shares	Participation in the capital stock	Kind of Share
YPF	2,723,826,879	72.69218%	A
OPESSA	86,476,112	2.30783%	A
Group	2,810,302,991	75.00001%	A
GE	936,767,364	24.99999%	B
Total	3,747,070,355	100.00000%	

As a result of this process, the Group reflected the investment in YPF EE in its consolidated financial statements as of December 31, 2017 as assets and liabilities held for disposal in separate lines from the rest of the assets and liabilities, given that as of that date they had met all the requirements for this classification. (See Note 2.b.24 and Note 3 to the annual consolidated financial statements).

The following table shows the main assets and liabilities held for disposal as of December 31, 2017:

- Group of assets held for disposal:

	December 31, 2017
Property, plant and equipment	4,982
Investments in associates and joint ventures	2,117
Inventories	1
Other receivables	914
Credits for sale	713
Investments in financial assets	78
Cash and cash equivalents	61
Subtotal	8,866
Deletions	(43)
Total	8,823

- Liabilities associated to the group of assets held for disposal:

	December 31, 2017
Provisions	96

Deferred tax liabilities	282
Remuneration and social security charges	47
Other liabilities	1
Loans	4,072
Accounts payable	938
Subtotal	<u>5,436</u>
Deletions	<u>(1,243)</u>

4. ACQUISITIONS AND DISPOSITIONS (Cont.)

As of March 31, 2018, as a result of the implementation of IFRS 10 and the aforementioned capitalization process of YPF EE, the Group recorded a gain of 11,980 (11,879 through YPF and 101 through OPESSA) included in the item “Other net operating results”, which includes a gain of 13,552 (13,451 through YPF and 101 through OPESSA) due to the dilution of its interest in YPF EE with the consequent loss of control over it and the subsequent revaluation of its residual interest and a loss of 1,572 (fully corresponding to YPF) for the reversal to net profit for the period of the balance accrued from the investment translation in this Company.

In order to determine the fair value of the investment in YPF EE, the Group has considered the elements available as of the date of these financial statements, including the best estimation of the occurrence of the contingent payments provided in the operation. However, for the measurement of this fair value the Group has a term of one year to evaluate all the facts and circumstances existing as of the transaction date that might modify such measurement.

Regarding the participation held after the aforementioned transaction, the Group has followed the guidelines of IFRS 10 “Consolidated financial statements” and has concluded that from the entry of GE in YPF EE, GE and YPF will jointly control YPF EE. Consequently, the Group will apply IFRS 11 “Joint Arrangements” defining such company as a joint venture, and will value it according to the equity method under the IAS 28 “Investments in associates and joint ventures”.

Some of the main evaluated assumptions are described below:

- (i) Any decisions about the relevant activities of YPF EE thereof are to be taken jointly, there being no power of one shareholder over the other in relation to such activities, regardless of the different percentages of equity interests held in YPF EE by each of them. Although the Group owns a 75.00001% stake in YPF EE, according to the shareholders’ agreement, the following is required for decision-making purposes regarding the relevant activities: the approval of at least one Director appointed by each class of shares at the meeting of the Board of Directors and the approval of each class of shares for the adoption of such decisions at the Shareholders’ meeting;
- (ii) No shareholder has any power, as defined in IFRS 10, to the detriment of any other, independently of the number of Directors or personnel (key or not) appointed by each class of shares, in the management of the Company for its own benefit or to unilaterally modify the variable investment returns or ultimately, to unilaterally direct any of the decisions associated with the relevant activities.

5. FINANCIAL RISK MANAGEMENT

The Group’s activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group maintains an organizational structure and systems that allow for the identification, measurement and adoption of the necessary actions in order to minimize the risks to which it is exposed.

The condensed interim consolidated financial statements do not include all the information and disclosures on financial risk management. Therefore, they should be read in conjunction with the Group’s annual consolidated financial statements.

There have been no significant changes in the risk management or risk management policies applied by the Group since the last fiscal year end. See Note 4 to the annual consolidated financial statements.

6. SEGMENT INFORMATION

The different segments in which the Group is organized take into consideration the different activities from which the Group obtains income and incurs expenses. The organizational structure is based on the way in which the highest decision-making authority analyzes the main financial and operating magnitudes for making decisions about resource allocation and performance assessment also considering the Group’s business strategy.

• **Upstream**

The Upstream segment carries out all activities relating to the exploration, development and production of oil and natural gas.

Revenue is generated from (i) the sale of produced oil to the Downstream segment and, marginally, from its sale to third parties; and (ii) the sale of produced gas to the Gas and Power segment.

• **Gas and Power**

The Gas and Power segment generates its revenue from the development of activities relating to: (i) the natural gas commercialization to third parties and the Downstream segment, (ii) the commercial and technical operation of LNG regasification terminals in Bahía Blanca and Escobar, by hiring two regasification vessels, and (iii) the natural gas distribution. Additionally, for the three-month period ended March 31, 2017, it included the generation of conventional and renewable electricity.

In addition to the proceeds derived from the sale of natural gas to third parties and the intersegment, which is then recognized as a “purchase” to the Upstream segment, and including Stimulus Plans for Natural Gas production in force (see Note 30 to the annual consolidated financial statements), Gas and Power accrues a fee in its favor with the Upstream segment to carry out such commercialization.

• **Downstream**

The Downstream segment develops activities relating to: (i) oil refining and petrochemical production, (ii) commercialization of refined and petrochemical products obtained from such processes, and (iii) logistics related to the transportation of oil and gas to refineries and the transportation and distribution of refined and petrochemical products to be marketed in the different sales channels.

It obtains its income from the marketing mentioned in item (ii) above, which is developed through the Retail, Industry, Agro, LPG, Chemicals and Lubricants and Specialties businesses.

It incurs all expenses related to the aforementioned activities, including the purchase of oil from the Upstream segment and third parties and the natural gas to be consumed in the refinery and petrochemical industrial complexes from the Gas and Power segment.

• **Central Administration and Others**

It covers other activities, not falling into the aforementioned categories, mainly corporate administrative expenses and assets and construction activities.

Sales between business segments were made at internal transfer prices established by the Group, which generally seek to approximate domestic market prices.

Operating profit and assets for each segment have been determined after consolidation adjustments.

The Group has no financial liabilities at fair value through profit or loss.

Fair value estimates

From December 31, 2017 until March 31, 2018, there have been no significant changes in the commercial or economic circumstances affecting the fair value of the Group’s assets and financial liabilities, whether measured at fair value or amortized cost, except as mentioned in Note 30.b.

Furthermore, during the three-month period ended March 31, 2018, there were no transfers between the different hierarchies used to determine the fair value of the Group’s financial instruments.

Fair value of financial assets and financial liabilities measured at amortized cost

The estimated fair value of loans, considering unadjusted listed prices (Level 1) for Negotiable Obligations and interest rates offered to the Group (Level 3) in connection with the remaining financial loans amounted to 204,180 and 200,264 as of March 31, 2018 and December 31, 2017, respectively.

The fair value of other receivable, trade receivables, cash and cash equivalents, accounts payable and Other liabilities do not differ significantly from their book value.

16. INCOME TAX

According to IAS 34, income tax expense is recognized in each interim period based on the best estimate of the effective income tax rate expected as of year-end. Amounts calculated for income tax expense for the three-month period ended March 31, 2018 may need to be adjusted in the subsequent period if, based on new factors of judgment, the estimate of the effective expected income tax rate changes.

The calculation of the income tax expense accrued for the three-month period ended March 31, 2018 and 2017 is as follows:

	For the three-month period ended March 31,	
	2018	2017
Current income tax	(71)	(139)
Deferred income tax	(11,629)	2,959
	<u>(11,700)</u>	<u>2,820</u>

The reconciliation between the charge to income for income tax for the three-month period ended March 31, 2018 and 2017 and the one that would result from applying the prevailing tax rate on net income before income tax arising from the consolidated statements of comprehensive income for each year is as follows:

	For the three-month period ended March 31,	
	2018	2017
Net income before income tax	17,686	(2,628)
Statutory tax rate	30%	35%
Statutory tax rate applied to net income before income tax	(5,306)	920
Effect of the valuation of property, plant and equipment and intangible assets measured in their functional currency	(14,898)	3,782
Exchange differences	5,793	(2,476)
Effect of the valuation of inventories	(975)	274
Income on investments in associates and joint ventures	64	8
Result of companies' revaluation	3,594	—
Miscellaneous	28	312
Income tax	<u>(11,700)</u>	<u>2,820</u>

Breakdown of deferred tax as of March 31, 2018 and December 31, 2017 is as follows:

	<u>March 31, 2018</u>	<u>December 31, 2017</u>
Deferred tax assets		
Provisions and other non-deductible liabilities	1,887	1,861
Tax losses carryforward and other tax credits	7,792	6,484
Miscellaneous	117	99
Total deferred tax assets	<u>9,796</u>	<u>8,444</u>
Deferred tax liabilities		
Property, plant and equipment	(56,108)	(43,931)
Miscellaneous	(2,238)	(1,570)
Total deferred tax liabilities	<u>(58,346)</u>	<u>(45,501)</u>
Total deferred tax, net	<u>(48,550)⁽¹⁾</u>	<u>(37,057)</u>

- (1) Includes 127 as a result of the implementation of the impairment method in the calculation of the impairment of financial assets pursuant to IFRS 9, having an impact in “Retained earnings”. See Note 2.b.

As of March 31, 2018 and December 31, 2017 there are no significant unrecorded deferred tax assets.

As of March 31, 2018 and December 31, 2017, the Group has classified as deferred tax assets for 742 and 588, respectively, and as deferred tax liability 49,292 and 37,645, respectively, all of which arise from the net deferred tax balances of each of the separate companies included in these condensed interim consolidated financial statements.

As of March 31, 2018 and December 31, 2017, the transactions that generate entries to “Other comprehensive income”, did not create temporary differences for income tax.

29. CONTRACTUAL COMMITMENTS

Contractual commitments are described in Note 29 to the annual consolidated financial statements. Updates for the three-month period ended March 31, 2018 are described below:

29.a) Investment project agreements

• **Agreement for the development of Loma La Lata Norte and Loma Campana areas**

In relation to the Investment Agreement entered into between the Company and subsidiaries of Chevron Corporation for the joint exploitation of non-conventional hydrocarbons in the province of Neuquén, in the Loma Campana area, for the three-month period ended March 31, 2018, the Company and Compañía de Hidrocarburo No Convencional S.R.L. (“CHNC”) have carried out transactions which include the purchase of gas and crude oil by YPF for 2,108. These transactions were executed based on the market’s general and regulatory framework. The net balance to be paid to CHNC as of March 31, 2018 is 696.

• **Agreement for the exploitation of the Aguada Pichana and Aguada de Castro Areas**

Once the agreements have been finalized and the corresponding conditions have been fulfilled, the equity interests of YPF are as follows:

- (i) In the APE area, the interest of YPF is 22.50%
- (ii) In the APO area, the interest of YPF is 30%
- (iii) In the ACA area, the interest of YPF is 30%

Consequently, the Group has recorded a profit of 1,167 included in the item “Other net operating results”.

30. MAIN REGULATIONS AND OTHERS

Main regulations and others are described in Note 30 to the annual consolidated financial statements. Updates for the three-month period ended March 31, 2018 are described below:

30.a) Regulatory natural gas requirements

• **Financing of winter consumption**

On March 27, 2018, a memorandum of intent was signed with ENARGAS, natural gas producers, distribution and transportation companies in order to commit efforts aimed at the development of a natural gas winter consumption financing program jointly with the subscribing parties.

30.b) Natural gas production incentive programs

On April 3, 2018, MINEM Resolution No. 97/2018 was published in the Official Gazette approving the procedure (the “Procedure”) for the cancellation of compensations pending settlement and/or payment under the Natural Gas Surplus Injection Stimulus Program, Natural Gas Surplus Injection Stimulus Program for Companies with Reduced Injection and the Stimulus Program for New Natural Gas Projects, to which the beneficiary companies may adhere.

Each company may choose to receive compensation under the approved procedure stating its accession within 20 business days from the publication of the resolution. It is required that the company waive any rights, actions, remedies, appeals, and claims, either administrative and/or judicial, based on the Program, except for: i) the objection to the administrative acts that determine the relevant compensation according to the Procedure; and ii) the failure to comply with the payments provided for under the Procedure for a minimum amount of 3 installments, at the option of each beneficiary Company.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2018 AND COMPARATIVE INFORMATION (UNAUDITED)

30. MAIN REGULATIONS AND OTHERS (Cont.)

The debt amount will be determined as follows: 85% of the dollar amount will be calculated according to the exchange rate at the time of the injection (“Program exchange rate”) and 15% of the dollar amount but devalued (multiplied by the quotient between the Program exchange rate and the exchange rate corresponding to the payment dates of the compensation resolutions already issued or the date of publication of Resolution 97/2018, as applicable). The debt will begin to be canceled as of January 2019 in 30 monthly and consecutive installments, in pesos, at the monthly average reference rate set forth in the Communication A 3500 of the BCRA (Wholesale) of the month preceding each installment.

On May 3, 2018, the Group adhered to the aforementioned Procedure.

As a consequence of the foregoing, the Group recorded a gain of 804 included in the item “Net financial results “.

30.c) Regulatory requirements applicable to natural gas distribution

- **Tariff Renegotiation**
- i. Memorandum of Agreement for the Adoption of the Natural Gas Distribution License Agreement (also known as “Memorandum of Agreement for the Comprehensive Contractual Renegotiation”)

On March 28, 2018 Decree No. 252/2018 was published in the Official Gazette by which the PEN ratified the Memorandum of Agreement. Also, Resolution ENARGAS No. 300/2018 was published on that day, with the new tariffs scheme applicable as from April 1, 2018

- **Note from ENARGAS regarding the interest of YPF in Metrogas**

On April 5, 2018, ENARGAS rejected the motion for reconsideration submitted by YPF on March 30, 2017. YPF was notified of the decision of ENARGAS on April 6, 2018 through ENARGAS Resolution 313/2018.

As of the date of issuance of these consolidated condensed interim financial statements, YPF is analyzing the following legal steps as a result of the rejection of the aforementioned appeal.

30.d) Regulatory requirements of the liquefied petroleum gas industry

- **Reference prices for the marketing chain of butane gas**

Regulation No. 5 of the Undersecretariat of Hydrocarbon Resources was published on March 28, 2018, which established new maximum reference prices for the commercialization of butane for the sale of bottled LPG, effective as of April 1, 2018.
